

COMFONE AND AB HANDSHAKE PARTNER TO STRENGTHEN SECURITY FRAMEWORKS ACROSS TELECOM

Miami, FL, USA - February 9, 2026 - [AB Handshake](#), a leading provider of anti-fraud solutions for the telecommunications industry, today announced a strategic partnership with [Comfone](#), a prominent global telecommunications services provider.

This collaboration brings together AB Handshake's advanced fraud prevention technology with Comfone's extensive industry expertise and global ecosystem. The partnership aims to strengthen security frameworks and support telecommunications operators worldwide in addressing increasingly complex fraud threats across voice and messaging services.

Anna Potapova, Head of Strategic Partnerships at AB Handshake, commented:

"We are honored to partner with Comfone, a respected leader in telecommunications services. This partnership represents a significant milestone for AB Handshake as we work together to bring enhanced security solutions to operators globally. Comfone's industry expertise and reach make them an ideal partner in our mission to combat telecommunications fraud."

The alliance reflects both companies' commitment to advancing industry standards and delivering innovative solutions that protect the telecommunications ecosystem.

Pedro Sebastião, Director of Partnerships at Comfone, added:

"Partnering with AB Handshake aligns with our commitment to equip our customers with best-in-class, trusted solutions. AB Handshake's innovative approach to fraud prevention strongly complements our portfolio and reinforces our mission to safeguard the global roaming ecosystem. This collaboration is also a robust example of the Comfone Partnership Program in action, bringing together leading specialists to deliver tangible value to the telecommunications community."

Strengthening Fraud Prevention Across Voice and Messaging

As part of the partnership, AB Handshake has been selected as a global business partner to support Comfone's customers with advanced fraud detection and prevention capabilities. Leveraging behavioral analysis and machine learning with 99.99% accuracy, AB Handshake's solutions enable real-time detection, blocking, and reporting of fraud across voice and SMS traffic.

AB Handshake's portfolio supporting the partnership includes:

- **Voice Fraud Protection** - Solutions leveraging [AI-driven call pattern analytics](#) and [patented network-level validation](#) deliver real-time protection against a wide range of voice fraud scenarios while preserving legitimate traffic and service quality.
- **AI Shield for SMS** - Designed to protect SMS traffic in real time, [AI Shield for SMS](#) detects and blocks smishing, spam, prohibited content distribution, Sender ID manipulation, and bypass of legitimate termination routes.
- **Enterprise Solutions** - Including Secure Branded Calling and API-based [AIT Protection for Enterprises](#), designed to safeguard enterprise customers, brand reputation, and business continuity.

About Comfone

Comfone has been a leading vendor of roaming services since 1997, and we remain unique as the only supplier in the market to offer all services required to establish roaming for a multitude of players in the industry.

Our broad portfolio encompasses all IPX services (GRX, IPX, SS7, Diameter Signalling), Data and Financial Clearing services, Key2roam Roaming Hub, boasting the largest coverage worldwide, and a range of Business Intelligence services (Data Management Service) and Analytics. Each service is accessible through our Key2roam Platform, providing a simple, convenient and transparent solution.

Comfone serves 600+ customers around the world, it is a privately-owned company with headquarters in Bern, Switzerland, and with around 125 international staff speaking over 40 languages.
